DTB CME/CPD: Summary

▼ Apixaban and ▼ rivaroxaban for stroke prevention in AF

As evidence of continuing medical education, this form may be used to record the key learning points and actions resulting from reading a DTB article.

Name:

Date of completion:

This article helped by: (please tick all that apply)

☐ Introducing new ideas
☐ Challenging existing knowledge
☐ Reinforcing existing knowledge
☐ Identifying further gaps in my knowledge

This article helped me: (please mark on the scale)

Not at all A lot

The article would have been even better if: (What would you change?)

What have I learnt from this article? (What were the key learning points for you?)

As a result of reading this article what will I do? (What will I do next? e.g. change or maintain current practice, do further reading, discuss with colleagues)

How long did it take me to read and reflect?
